

## It really is easy!

### No minimum contract period

There are so many ways to raise funds using **Justgiving** that we think you'll never want to leave. But if you just want to dip your toe, you can cancel with one month's notice and come back any time.

### No extra administration for you

We understand that administration often slows down the process of raising funds. Your **Justgiving** charity account is accessible at any time, day or night, and if you have any questions, we have a dedicated helpdesk for both your charity and your supporters too! It's open 9am - 6pm Monday to Friday.

### No complicated technology needed

All you need is internet access and an email address. Your charity doesn't even need a website!

If you have any questions at all, please don't hesitate to contact **Lee Marshall** or **Molly Loyd** on **020 7067 0988** or email [signup@justgiving.com](mailto:signup@justgiving.com)

**Karen Peffer, Challenge Events Coordinator, Shooting Star Children's Hospice on using Justgiving:**

"It's easier for fundraisers because they don't have to do as much paperwork themselves. It encourages people to sponsor because it's easier for them. And it's better for us - because we get the money directly there isn't such a delay, particularly from challenge events"
